

3M Super Close Projection System SCP716

Brief Introduction

Beta 2.5

With the Super Close Projection System SCP716, manufacturer 3M offers a DLP projector with XGA 1024 x 768 resolution and a contrast of 1800:1. The built-in lens shift and keystone correction function provides freedom when setting up. An image width of up to 427 cm is possible as the projector has 2400 Ansi lumens. However, if room light is available, the picture should be max. 285 cm wide. The projector also offers a whiteboard function that makes training and presentation rooms interactive. With only 28.5 decibels of operating noise, the model is already very quiet compared to others. The model was built by 3M in 2009 and is no longer current.

Display Type

1 x 0,55" DLP Chip
XGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 2400
