

3M X56

3M X56

The X56 LCD projector from 3M has 5000 Ansi lumens, a contrast of 2000:1 and an XGA 1024 x 768 resolution. Includes an integrated media player for direct playback of files. The built-in lens shift and keystone correction function provides freedom when setting up. The projector is equipped with a microphone jack plug and 16W speakers, so no additional speakers are required for presentations or training courses. 5000 Ansi lumens ensure that a picture width of 616 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 411 cm. The projector can also play 1080P without any problems. The projector was launched in 2011 and is no longer sold by the manufacturer.
