

Brookstone Virtual Touch Smart

BROOKSTONE VIRTUAL TOUCH SMART

Brief presentation

Beta 2.5

The game portable Virtual Touch Smart LED DLP has a contrast of 5000:1 and an HDTV 1280 x 720 resolution. An LED life of 20,000 hours indicates the manufacturer, which would be looking at a daily look of 4 hours over 13.7 years. A image width of up to 203 cm is possible, since the projector has 400 Ansi lumens. However, if room light is present then the image should be max. 135 cm wide. Due to the built-in Projector - 8700mAh, Up to 180 mins (Eco mode) battery, no power supply is required, which allows the beamer to set up quickly and flexibly. Furthermore, the projector 1080P can play without problems. It was launched in 2018 and is no longer offered by the manufacturer Brookstone.
