

Celluon PicoAir

CELLUON PICOAIR

The PicoAir has 32 Ansi lumens, a contrast of 80000:1 and an HDTV 1280 x 720 resolution. The projector can be operated for up to 2 hours via the rechargeable battery, making it easy to set up spontaneously anywhere. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz via screen mirroring and the smartphone is charged at the same time. The projector was launched in 2015 and is no longer sold by the manufacturer, but is still a popular projector in our database.
