

Epson USA PowerLite 1955

EPSON USA POWERLITE 1955

The Epson USA PowerLite 1955 LCD projector has 4500 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate a picture width of up to 584 cm thanks to its 4500 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 389 cm. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Epson USA.
