

Epson USA PowerLite Z8455WU/NL

The Epson USA PowerLite Z8455WU/NL LCD projector has 7000 Ansi lumens, a contrast of 5000:1 and a WUXGA 1920 x 1200 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate images up to 850 cm wide thanks to its 7000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 567 cm. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. The model was built by Epson USA in 2012 and is no longer current.

 3 x LCD TFT Panel
