

# Traveler CS-11

From Lightware, the makers of portable and affordable projectors, comes another high-powered projector in the Traveler family. Introducing the 1100 lumen, true-SVGA Traveler CS-11. At just 5.5 pounds, it's ready to hit the road when you are.

The Traveler CS-11 also comes with Lightware's HyperZoom technology that lets you focus in on the tiniest details in your presentation. The HyperZoom control works like a wireless mouse and expands your slide view at the touch of a button.

Of course, the Traveler CS-11 comes with all the great features you have come to enjoy from Lightware. The Traveler CS-11 detects your computer or video source at the touch of a button; so set-up is a snap. You can quickly perform great presentations from your PC or watch your favorite movies on a 300-inch screen. This means you can enjoy the Lightware Traveler whether you're at work or play.

Ultraportable  
at just 5.5 lbs.

1100 ANSI lumens  
corner-to-corner  
brightness

HyperZoom control  
instantly targets and  
enlarges the fine print  
at the touch of a button

Connects to virtually  
any computer or  
video source

Digital Keystone  
Correction

Built-in control panel  
and remote control

# Traveler CS-11

## The Lightware message

Our philosophy on products stems from our focus and commitment to you—the customer. We drive our designs based on our close relationships with you and your true requirements. As a result, we promise to provide only high performance, easy-to-use and affordable projectors with responsive customer support.

## Included with every Traveler Projector:

### 3 in 1 Remote

Our remote controls your projector, PC Mouse and features a laser pointer. It also activates our HyperZoom and keystone correction technologies.
