With the LED D2000, manufacturer MediaLy offers an LCD projector with VGA 640 x 480 resolution and a contrast of 800:1. As MediaLy specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 120 Ansi lumens ensure that a picture width of 95 cm is also possible. However, if room light is available, the picture should be a maximum of 63 cm wide. At 28 decibels, the projector is very quiet compared to other projectors. On the market since 2014, the model is no longer offered by the manufacturer MediaLy.
