

aao YG561

A A O Y G 5 6 1

The aao YG561 LED LCD projector has 600 ANSI lumens and an HDTV 1920 x 1080 resolution. It is an LED projector with a 30,000-hour light lifespan, which is over 20.5 years at four hours a day. The projector can automatically optimise the projected image using the ambient light sensor. The 600 ANSI lumens brightness makes a screen width of 249 cm possible. In room light, the image should be a maximum of 166 cm wide. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Even 1080P video signals are no problem for the projector.

Brief Introduction

Beta 2.5

Display Type

- 1 x LCD Panel
- HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

600
