

DLP Projector M2

1902600

Overview

Give your presentations a little sparkle! The Nobo range of DLPs® are small and light, yet deliver a powerful punch! They enable you to present with real confidence even on to large screens, delivering a sparkling image with excellent highlight and shadow detail. Simple to use and easy to set-up they allow you to deliver a real performance to be proud of!

The pocket sized digital projector that's big enough to deliver powerful presentations to small teams. Ideally suited for use with the Nobo Ultra Portable screen, allowing you to create impromptu business presentations in seconds. A2 size desktop portable screen delivers impactful presentations to up to 8 people wherever you are. Designed to maximise the projection quality from ultra portable projectors, this screen delivers an ultra-sharp professional image. Screen size 600 x 450 mm (4:3 format) including 30 mm black border. Supplied with high quality neoprene case.

Description

Powerful enough to deliver dynamic presentations to teams of up to 8 people yet so small it will fit in your pocket, the Nobo M2 Mini Projector enables you to share pictures, corporate videos and presentations using the latest cutting-edge DLP® technology.

Featuring a 4GB internal memory and built-in OSW speaker, the projector can be used to show images and promotional videos without a laptop. Transferring files from your PC to the projector is simple; all the software you need to get started is stored in the M2 Mini and can be downloaded to your PC using the USB cable supplied. The Projector comes with a 90 minute life battery, allowing you to give impromptu presentations with or without a laptop or external power supply, wherever you are.

For best results with Powerpoint presentations, the Nobo M2 Mini Projector should be connected to your laptop via VGA power lead. This increases the resolution and ensures that the projected images are of laptop quality.

Your audience is sure to appreciate the impressive DLP® imagery produced by this tiny system. Sharp, detailed pictures and rich colours bring your ideas to life and reflect a professional company image. The Nobo M2 Mini Projector operates silently and unobtrusively, allowing both the presenter and audience to convey or digest information with no distractions.

Designed for use with the Nobo Ultra Portable Fold-out Screen, the M2 Mini Projector weighs just 188g, making this one of the smallest and lightest projectors on the market. Maintenance is easy too. The LED light source will last for 20,000 hours, meaning with an average use of 20 hours of week, it will last for nearly 20 years.

The Nobo M2 Mini Projector comes with a comprehensive selection of accessories including a universal AV cable for projecting images from a camera or video, a USB download cable, a VGA cable, rechargeable battery, a comprehensive user guide and a 12 month manufacturer's warranty so you can purchase with confidence.
