AOPEN AV10

With the AV10, manufacturer Aopen offers a DLP LED projector with WVGA 854 x 480 resolution and a contrast of 10000:1. Thanks to the LEDs, the projector has a light life of up to 20000 hours, which equates to over 13.7 years with a daily viewing time of 4 hours. A picture width of up to 124 cm is possible. However, the picture should be smaller in room light. We recommend max. 83 cm. Thanks to the built-in 4000 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Even 1080P playback is no problem for the projector. This model is no longer offered by Aopen.
