### Connections

The Acer model H6518BD old is a DLP projector with HDTV 1920 x 1080 resolution and a contrast of 20000:1. The built-in ambient light sensor detects the ambient light in the room and automatically optimizes the image. 575 cm image width, the projector will be able to illuminate well. However, if there is room light, the image width should ideally not exceed 383 cm. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Playing 1080P and 3D is also no problem for the projector. It was launched on the market in 2015 and is no longer offered by the manufacturer Acer.
