

Acer H6805BDa

ACER H6805BDa

Brief Introduction

Beta 2.5

With the H6805BDa, manufacturer Acer offers a DLP projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 10000:1. The lamp of the projector is specified with a lamp life of 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. The integrated media player can play files directly. The horizontal and vertical keystone correction allows the projector to be positioned very freely. Thanks to the brightness of 4000 Ansi lumens, a picture width of 643 cm is possible. The projector can also handle slightly brighter rooms with a narrower picture width (we recommend a maximum of 429 cm). Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and therefore all currently available Blu-ray formats can be recognized by the projector.
