

Acer H7531D

ACER H7531D

The H7531D BrilliantColor DLP has 2000 Ansi-Lumen, a contrast of 50000:1 and a HDTV 1920 x 1080 resolution. The projector will be able to illuminate a 454 cm picture width well. If room lighting is available, however, the picture width should ideally not exceed 303 cm. Playing 1080P is also no problem for the projector. With only 30 decibels of operating noise, the model is already very quiet compared to others. It was launched in 2010 and is no longer offered by the manufacturer Acer, but is still very popular in our projector database.

Brief Introduction
