A brief introduction to the Acer K750. The standard portable DLP laser projector has an HDTV resolution of 1920 x 1080 and a contrast of 100000:1. The manufacturer states a laser life of 20000 hours, which is equivalent to over 13.7 years at 4 hours. 1500 Ansi lumens ensure that a picture width of 393 cm is also possible. However, if room light is available, the picture should be a maximum of 262 cm wide. At just 30 decibels, the device is one of the quieter projectors. The projector was launched in 2012 and is no longer sold by the manufacturer, but is still very popular in our projector database.
