

# Acer X1228i

ACER X1228i

A brief introduction to the Acer X1228i. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 20000:1. The lamp in the projector is specified with a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours a day. Thanks to the brightness of 4500 Ansi lumens, a picture width of 584 cm is possible. The projector will also create slightly brighter rooms with a smaller image width (we recommend max. 389 cm). The projector has optional Ezcast, Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. It is also Full HD 1080P and 3D compatible. Even projection onto the ceiling is possible thanks to the 360° projection.
