

Acer X1827

ACER X1827

Brief Introduction

Beta 2.5

The Acer X1827 standard portable 3D DLP projector has 4000 Ansi lumens, a contrast of 10000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lamp of the projector is specified with a lamp life of 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. The horizontal and vertical keystone correction allows the projector to be positioned very freely. 643 cm picture width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm here. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). The model is also compatible with Full HD 1080P and 4K as well as 3D, meaning that all Blu-ray formats currently available can be recognized by the projector. Unfortunately, we can no longer offer a replacement lamp for this model, neither original nor replica.
