

AGIMA X3

AGIMA X3

The X3 LED LCD portable game projector has 200 ANSI lumens, a contrast ratio of 10,000:1 and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 30,000 hours, which is the equivalent of over 20.5 years at 4 hours a day. The projector also offers an integrated media player that can be used to play files directly. The projector can be set up very freely thanks to the horizontal and vertical keystone correction. An image width of up to 144 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 96 cm. The projector has Chromecast, Airplay, Miracast Screen Mirroring support, which makes it possible to play videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS directly via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P compatible. With only 25 decibels of operating noise, the model is already very quiet compared to others.

Brief Introduction

Beta 2.5

Display Type

- 1 x LCD TFT Panel
- HDTV 16/9 Liquid Crystal Display
