

Product Information

PocketCinema V20

PocketCinema V20

Stand-alone Pico Projector for Business Presentation and Personal Entertainment

Product overview

V20 is the new pico beamer of the Aiptek PocketCinema series. With the integrated media player the V20 is able to play videos, photos and MP3 files. **With the new LED R.G.B. technology the pico beamer projects pictures up to 65"**. Because of the internal memory and the embedded rechargeable battery you can use the projector anywhere and anytime. **With the extra VGA interface you can easily connect the projector to your Notebook or Netbook.**

Product features

- **Pocket size pico projector projects photos, videos and presentations from 2GB internal memory**
- **New R.G.B. LED technology** provides a wide range of true colors in high contrast
- **Projects pictures and videos up to to 165 cm (65")**
- Supports **SDHC/SD/MMC card slot up to 32GB**
- Supports **Notebook and Netbook via VGA cable**
- **Projects from external media players** including iPod, iPhone, mobile phone, camcorder, digital camera, DVD player or game console via AV jack
- **Ergonomic design with touch buttons**
- **Integrated rechargeable battery** for ultimate mobility and immediate sharing
- Uses LED technology with long lifetime more than 10,000 hours
- **Remote control** included
