

Akiyo O3

AKIYO O3

Brief Introduction

Beta 2.5

Brief introduction to the Akiyo O3. The portable LCD LED game projector has an HDTV 1920 x 1080 resolution and a contrast ratio of 10000:1. The LEDs have a service life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. 300 ANSI lumens ensure that an image width of 176 cm is also possible. However, if there is room lighting, the image should be no more than 117 cm wide. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Playing 1080P is also no problem for the projector.
