

# Alwtniet HY300

ALW T N I E T H Y 3 0 0

The HY300 LED LCD has 200 Ansi-Lumen, a contrast of 1500:1 and an HDTV 1280 x 720 resolution. Thanks to the LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours of use. The integrated media player allows files to be played directly. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector can illuminate images up to 144 cm wide thanks to its 200 Ansi lumens. In room light, however, the image width should ideally be less than 96 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Playback of 1080P and 4K (compressed) is also no problem for the projector. At 25 decibels, the projector is very quiet compared to other projectors.
