

Aopen QH15s

AOPEN QH15S

Brief Introduction

Beta 2.5

Brief introduction to the Aopen QH15s. The portable gaming LCD LED projector features an HDTV resolution of 1280 x 720 and a contrast ratio of 1000:1. Thanks to its LEDs, the projector has a light source lifespan of up to 30,000 hours which equates to over 20.5 years of use at four hours per day. Horizontal and vertical keystone correction provides flexibility during setup. The projector can effectively illuminate a screen width of 136 cm. However, if there is ambient light in the room, the screen width should ideally not exceed 91 cm. The model supports AirPlay and Miracast screen mirroring signals, making it possible to stream high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Furthermore, it is Full HD 1080p compatible.
