The Aurzen EAZZE D1R Roku LED LCD projector has 330 ANSI lumens, a contrast ratio of 15000:1, and HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years at 4 hours per day. The projector can illuminate images up to 185 cm wide thanks to its 330 ANSI lumens. However, in room lighting, the image width should ideally be less than 123 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. Playing 1080P is also no problem for the projector.
