

Aurzen EAZZE E1

EAN/UPC:B0H4TCLDSM

Brief Introduction

Beta 2.5

A brief introduction to the Aurzen EAZZE E1. This LCD LED projector has an HDTV resolution of 1280 x 720 and a contrast ratio of 1500:1. The manufacturer specifies an LED lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours? use per day. The built-in ambient light sensor (Ambient Light Sensor) detects the ambient light in the room and automatically optimises the image. Thanks to its 300 ANSI lumens, the projector can effectively illuminate an image width of up to 176 cm. However, in well-lit rooms, the image width should ideally be less than 117 cm. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. In addition, the Bluetooth capability is a useful feature of the projector, particularly for wireless audio transmission. Playing 1080p content is also no problem for the projector.
