

Aurzen ZIP Gold

AURZEN ZIP GOLD

The Aurzen ZIP Gold is a DLP LED projector with HDTV 1280 x 720 resolution and a contrast ratio of 300:1. It is an LED projector with a light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. An image width of up to 102 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 68 cm. Thanks to the built-in 5000 mAh (1.5 hours playtime) battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The projector can also play 1080P and 4K (compressed) without any problems.
