

Aurzen ZIP Gray

AURZEN ZIP GRAY

The Aurzen ZIP Gray LED DLP projector has 100 ANSI lumens, a contrast ratio of 300:1, and HDTV 1280 x 720 resolution. The manufacturer Aurzen specifies a service life of 30,000 hours, which is over 20.5 years when used for four hours a day. The brightness of 100 ANSI lumens allows for an image width of 102 cm. In room light, the image should be no more than 68 cm wide. The built-in 5000 mAh (1.5 hours playtime) battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Even 1080P and 4K (compressed) video signals are no problem for the projector.
