

# Barco IQ G400

BARCO IQ G400

A brief introduction to the Barco IQ G400. The LCD projector has an XGA 1024 x 768 resolution and a contrast of 400:1. The integrated lens shift provides freedom when positioning the projector. An image width of up to 564 cm is possible, if the image width is smaller (we recommend max. 376 cm), rooms with residual light are also no problem. The model was built by Barco in 2002 and is no longer current.
