

Barco SP4K-15

BARCO SP4K-15

With the SP4K-15, manufacturer Barco offers a DLP projector with UHD (4K+2K) 4096 x 2160 resolution and a contrast of 2300:1. An image width of up to 1325 cm is possible, if the image width is smaller (we recommend max. 883 cm), rooms with residual light are also no problem. Video signals 1080P and 4K as well as 3D are also no problem for the projector, and therefore all currently available Blu-ray formats can be recognized by the projector. This model is no longer offered by Barco, but is still a popular projector in our database.
