

Benq GP30

BENQ GP30

The Benq model GP30 is a DLP LED projector with WXGA 1280 x 800 resolution and a contrast of 100000:1. Due to the LEDs, the projector has a light life of up to 30,000 hours, which is over 20.5 years with a daily viewing time of 4 hours. Includes an integrated media player that can be used to play files directly. The projector can illuminate a picture width of up to 305 cm thanks to its 900 Ansi lumens. In room lighting, however, the image width should ideally be less than 203 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It is also Full HD 1080P compatible. The model built in 2014 is no longer offered by Benq.
