

Benq LU710 /D

BENQ LU710 /D

A brief introduction to the Benq LU710 /D. The standard portable DLP laser projector has a resolution and contrast of 3000000:1. The service life is 20000 hours due to the laser, which converts to over 13.7 years at 4 hours. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. Furthermore, the projector can play 1080P and 3D without any problems and can even project Blu-rays onto the ceiling thanks to 360° projection. This model is no longer offered by Benq.
