

Benq LU930 /D

BENQ LU930 /D

The Benq model LU930 /D is a DLP laser projector with a resolution and a contrast of 3000000:1. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours. The projector also offers a lens shift function for flexible projection adjustment without loss of quality. 718 cm image width, the projector will be able to illuminate well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 479 cm here. Video signals 1080P and 3D are also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. The model built in 2019 is no longer offered by Benq.
