

# Benq LX60ST

BENQ LX60ST

The Benq model LX60ST is a DLP laser projector with XGA 1024 x 768 resolution and a contrast of 80000:1. The manufacturer specifies a laser service life of 10000 hours, which is equivalent to over 6.8 years at 4 hours of operation. Including an integrated media player with which files can be played directly. With a projection ratio of just 0.6:1, this projector never gets in the way. For a 2m wide image, the projector only needs to be 120 cm away from the screen. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training sessions. Furthermore, the projector can play 1080P without any problems. The projector was launched in 2012 and is no longer sold by the manufacturer.
