

Benq MW724

BENQ MW724

The Benq MW724 is a DLP projector with WXGA 1280 x 800 resolution and a contrast ratio of 13000:1. Since the projector has horizontal and vertical keystone correction, it can be set up with plenty of space in the room. The model offers a microphone jack and 10W speakers, so no additional audio equipment is required for presentations or training sessions. An image width of up to 618 cm is possible; if the image width is smaller (we recommend max. 412 cm), even rooms with residual light are no problem. The projector can also play 1080P and 3D without any problems. Launched in 2015, this model is no longer available from the manufacturer Benq.
