The Benq model MX618ST is a DLP projector with XGA 1024 x 768 resolution and a contrast of 13000:1. The manufacturer specifies a lamp life of 3500 hours, which is over 4.8 years with a daily viewing time of 2 hours. The integrated media player allows files to be played directly. 2800 Ansi lumens ensure that a picture width of 461 cm is also possible. However, if room light is available, the picture should be a maximum of 307 cm wide. Playing 1080P is also no problem for the projector. The model built in 2013 is no longer offered by Benq.
