

Benq MX711

BENQ MX711

A brief introduction to the MX711: The Benq standard portable 3D BrilliantColor DLP projector offers 3200 Ansi lumens, a contrast of 5300:1 and an XGA 1024 x 768 resolution. Thanks to the lamp, the projector has a lamp life of up to 3500 hours, which is over 4.8 years if enjoyed for two hours a day. Includes an integrated media player for direct playback of files. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. 493 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 329 cm. Even 1080P video signals are no problem for the projector. The model built in 2010 is no longer offered by Benq, but is still very popular in our projector database.

Brief Introduction Beta 2.5

Display Type

1 x DLP Chip
