

Benq MX750

BENQ MX750

The Benq MX750 3D BrilliantColor DLP projector has 3000 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. Thanks to the brightness of 3000 Ansi lumens, a picture width of 477 cm is possible. In room light, the picture should be max. 318 cm wide. It is also Full HD 1080P compatible. With only 30 decibels of operating noise, the model is already very quiet compared to others. The model built in 2010 is no longer offered by Benq.
