

# Benq X1300i

BENQ X1300i

The standard portable X1300i 3D LED DLP has 3000 Ansi lumens, a contrast of 500000:1 and a UHD (4K2K) 3840 x 2160 resolution. The lifespan of the LEDs is 30000 hours, which is over 20.5 years if enjoyed for four hours a day. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 556 cm is possible. However, the image should be smaller in room light. We recommend max. 371 cm. Thanks to the integrated Android TV software, it offers direct access to a variety of streaming services such as Netflix, Disney+, Amazon Prime Video and YouTube as well as games and other interactive content. Furthermore, it is Full HD 1080P and 4K as well as 3D compatible, and thus all currently offered Blu-ray formats can be recognized by the projector. The model was built by Benq in 2021 and is no longer current.
