

Boxlight Cambridge WX36N

BOXLIGHT CAMBRIDGE WX36N

The Cambridge WX36N LCD has 3600 Ansi lumens, a contrast of 15000:1 and a WXGA 1280 x 800 resolution. The lamp in the projector is specified with a lamp life of 10000 hours, which converts to over 13.7 years at 2 hours per day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 610 cm is possible, if the image width is smaller (we recommend max. 407 cm), rooms with residual light are also no problem. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Even 1080P video signals are no problem for the projector. The model built in 2017 is no longer offered by Boxlight.
