

Brilens TS-1280

BRILENS TS-1280

The Brilens model TS-1280 is an LCD LED projector with WXGA 1280 x 800 resolution and a contrast of 100000:1. The service life is 50000 hours due to the LEDs, which is over 34.2 years with a daily viewing time of 4 hours. Including a lens shift function, which provides freedom during installation. Thanks to the short throw projection ratio of just 0.6:1, the projector is not disturbed in the room. For a 2m wide image, the projector only needs to be 120 cm away from the screen. As Brilens specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. It is also Full HD 1080P compatible.

Brief Introduction

Beta 2.5

Display Type

3 x LCD TFT Panel
WXGA 16/10 Liquid Crystal Display

Ansi-Lumen

288 / 4800 Lumen
