

Canon M-i1

CANON M-i1

A brief introduction to the M-i1: The Canon projector offers 700 Ansi lumens and an HDTV 1920 x 1080 resolution. An image width of up to 269 cm is possible. However, the picture should be smaller in room light. We recommend max. 179 cm. Thanks to the built-in 3.7V, 3,800mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. This model is no longer offered by Canon, but is still very popular in our projector database.

Brief Introduction

Beta 2.5

Display Type
