

Casio XJ M151

CASIO XJ M151

The standard portable XJ M151 3D Laser DLP has 2500 Ansi-Lumen, a contrast of 1800:1 and an XGA 1024 x 768 resolution. It is a laser projector with 20000 hours of light life, which is over 13.7 years with a daily viewing of 4 hours. A picture width of up to 435 cm is possible. However, the picture should be smaller in room light. We recommend max. 290 cm. Playing 1080P is also no problem for the projector. On the market since 2014, the model is no longer offered by the manufacturer Casio.
