

Casio XJ S39

CASIO XJ S39

Brief Introduction

Beta 2.5

A brief introduction to the Casio XJ S39. The standard portable DLP projector has an XGA 1024 x 768 resolution and a contrast of 1800:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. A picture width of up to 435 cm is possible. However, the image should be smaller in room lighting. We recommend max. 290 cm. The model built in 2009 is no longer offered by Casio.
