

Casio XJ S58

CASIO XJ S58

Brief Introduction

Beta 2.5

The standard portable Casio XJ S58 DLP projector has 3000 Ansi lumens, a contrast of 1800:1 and an XGA 1024 x 768 resolution. The integrated media player can play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. Thanks to the brightness of 3000 Ansi lumens, a picture width of 477 cm is possible. In room light, the image should be max. 318 cm wide. The projector was launched in 2009 and is no longer sold by the manufacturer. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
