

Casio XJ S68

CASIO XJ S68

Brief Introduction

Beta 2.5

A brief introduction to the XJ S68: The Casio standard portable DLP projector offers 3500 Ansi lumens, a contrast of 1800:1 and an XGA 1024 x 768 resolution. The integrated media player can play files directly. Horizontal and vertical keystone correction makes image adjustment childs play. The projector will be able to illuminate a picture width of 515 cm. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 343 cm here. Playing 1080P is also no problem for the projector. The model built in 2009 is no longer offered by Casio. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
