

Brief Introduction Beta 2.5

A brief introduction to the Chinavasion Wonder View CVVA-E145-N1. The game-portable DLP LED projector has an SVGA 800 x 600 resolution and a contrast of 2000:1. The manufacturer Chinavasion specifies a service life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours of use. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector can illuminate a picture width of up to 107 cm thanks to its 150 Ansi lumens. In room lighting, however, the picture width should ideally be less than 71 cm. This model is no longer offered by Chinavasion, but is still very popular in our projector database. 1 x DLP Chip
