

Christie DS+10K-M

CHRISTIE DS+10K-M

A brief introduction to the DS+10K-M: The Christie DLP projector offers 9300 Ansi lumens, a contrast of 10000:1 and an SXGA+ 1400 x 1050 resolution. Including a lens shift function, which provides freedom during installation. An image width of up to 840 cm is possible, if the image width is smaller (we recommend max. 560 cm), rooms with residual light are also no problem. If the image is still too small, the integrated edge blending software can help to project a large image with additional projectors. Playing 1080P is also no problem for the projector. This model is no longer offered by Christie.

Brief Introduction Beta 2.5

Display Type

3 x 0,95" DLP Chip
SXGA 4/3 Ti Digital Light Processing Chip

Ansi-Lumen

9300 / 4650 im singel Lamp Mode 3100 Lux (bei 200 cm Screen)
