

Christie M 4K25 RGB

CHRISTIE M 4K25 RGB

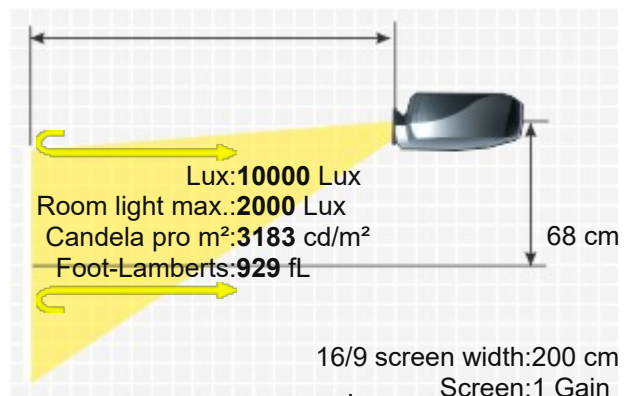

The Christie model M 4K25 RGB is a DLP laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 2000:1. The manufacturer specifies a laser service life of 25000 hours, which is over 17.1 years with a daily viewing time of 4 hours. The integrated lens shift gives freedom when positioning the projector. 1524 cm image width, the projector will be able to illuminate well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 1016 cm here. Playback of 1080P and 4K as well as 3D is also no problem for the projector, meaning that all Blu-ray formats currently on offer can be recognized by the projector. The projector was launched in 2021 and is no longer sold by the manufacturer.
