Operating Noise

The Christie Roadster S+18 J DLP projector has 16000 Ansi lumens, a contrast of 1600:1 - 2000:1 and an SXGA+ 1400 x 1050 resolution. The integrated lens shift gives freedom when positioning the projector. 1102 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 735 cm. In the event that the image is still too small, the projector offers integrated edge blending software, which allows several projectors to project a large image together. The model is also Full HD 1080P compatible. It was launched in 2011 and is no longer offered by the manufacturer Christie.
