Features

Screen Mirroring

The standard portable EzPro 550 LCD has 300 Ansi lumens, a contrast of 150:1 and an SVGA 800 x 600 resolution. The manufacturer CTX specifies a service life of 70 hours, which is over 0.1 years if enjoyed for two hours a day. An image width of up to 151 cm is possible as the projector has 300 Ansi lumens. However, if room light is available, the picture should be max. 101 cm wide. The model built in 1999 is no longer offered by CTX. Unfortunately, we can no longer offer replacement lamps for this model, neither originals nor replicas.
