

# CTX EzPro 680

CTX EZPRO 680

The standard portable EzPro 680 LCD has 500 Ansi lumens, a contrast of 250:1 and an XGA 1024 x 768 resolution. The projector will be able to illuminate a picture width of 195 cm well. However, if room light is available, the image width should ideally not exceed 130 cm. The model built in 1999 is no longer offered by CTX. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.
